

KDNA Match Committee Process

KDNA Match committee is a subcommittee of the KDNA Management committee.

PURPOSE:

1. KDNA Match Committee is responsible for the grading of all teams for each season.
2. KDNA Match Committee is responsible for court allocations and match times.
3. KDNA match Committee is responsible to undertake re-grading of any team as deemed in the best interest of the Age Section.
4. Regrading of any KDNA domestic competition team may occur between Round 1 -5.

STRUCTURE:

1. The committee consists of convenor- KDNA Competition Manager.
2. Umpires supervisor and 5 members of the KDNA community.
 - a. Please note members of Match Committee are not representative of their club but are representing KDNA domestic competition to undertake the duties set out in the purpose above.
3. The President and Secretary of KDNA are ex-officio members of the Match Committee subcommittee.
4. KDNA By Laws 18.1 A Match Committee subcommittee will be appointed by the KDNA Management Committee to evaluate and grade all teams.
5. Only Match Committee members attend meeting.
6. If a Match Committee member is unavailable, no replacement is required.
7. If less that 5 match Committee members can attend meeting, the meeting is to be rescheduled.

PROCESS:

KDNA Competition Manager receives all team sheets from Clubs. (MUST include previous player's Team/Grade.)

KDNA Match Committee convenor prepares the following information for consideration by Match Committee members for each KDNA domestic competition team's grade placement.

1. Team Sheets checked for KDNA Rep players to ensure Rep Rule is upheld.
2. Previous seasons age sections and grades with teams returning.
3. Previous seasons ladders for all age sections and grades with wins/loss/draws, goals for/against, and percentages.
4. Spread Sheet with all clubs and total teams submitted for each age section.
5. New for 2018; Identifying any teams that have score lines with a total goal scored margin of 20 goals or more throughout the season.

1st Match Committee meeting

1. Each age section considered with total number of teams entered for a balance across grades where possible.

Match Committee process May 2018

Presented to management Committee and Registration officers of KDNA Clubs – June 18th 2018

2. Grades generally have a min of 6 teams and max (pending on the number of rounds within the season) to ensure that all teams play each other at least once.
3. Byes within all age sections and grades kept at a minimum, but not to the detriment of a team.
4. Each club team sheet is examined for the players previous season grading, placement and results from previous season. In 11/U age section, the age of players are also a factor that are considered.
5. Consensus reached by match committee for A or B grade placement for each team within the age section.
6. This process is then repeated to determine Grade - A1 or A2 and B1 or B2. At times if the numbers of team entries allow, there may be more than 2 sections in a Grade ie: B1, B2, B3. Also there may only be enough teams for 1 grade section in an age group ie: 17U Sect 1 & 17U Sect 2.
 - a. Please note: 11&U/C grade is reserved for players moving from NSG section. If 2 x NSG sections required, this is usually determined as first season or second season playing and/or age of players. Under extreme circumstances, a team may be placed for 2 seasons within this grade.
 - b. Please note that teams do not necessarily proceed to the next age/grade.
ie: if playing 11&U A1 in the previous season, team may be placed into 13&UB2 or 13&A2.
7. If Match Committee are unsure of any team for grade placement, the teams in question is placed on a watch list to determine if data to determine grade equated to 'on court' performance.
8. Match Committee members view and assess these teams on skills and physical presence on court, but also will be viewing and assessing other teams in the above and below grade within the age section to compare.
9. Match Committee do not regrade teams until round three to ensure performance and consider any anomalies (fill in players, rotations etc...) across age/grade section, however may re-grade teams post round 1 or round 2 in extreme circumstances.
10. Match Committee convenor submits the teams grading and playing times to the management committee for ratification prior to the commencement of the season.
11. All teams grading will be announced electronically on the KDNA website prior to round 1 of each season.

Regrading

Regrading of any KDNA domestic competition team may occur between Round 1 -5
Please note: This means that teams could be re-graded post round 1 and prior to round 5.

In a ten week season regrading would be as at Round 3 and in a 12 week season it could possibly be up to round 5. An example of this would be when extreme weather (heat or rain) may effect some time slots in first 3 rounds therefore insufficient data for any decision.

Post round 1

Match Committee process May 2018

Presented to management Committee and Registration officers of KDNA Clubs – June 18th 2018

1. Match Committee members report on Round 1 matches assessed / viewed.
2. Competition Manager provides Match Committee members with score data for Round 1, for every team and alerts to any anomalies for teams.
3. Assessment request lodged officially by the clubs are considered for round 2.
4. Teams are identified for watch list for Round 2.
5. Assessment of these teams to be determine with score line data from previous season if applicable, round 1 data and 'on court' performance. Match committee members view and assess these teams on skills and physical presence on court, but also will be viewing and assessing other teams in the above and below age section to compare skills level.
6. This process repeated for Round 2 and 3.

2nd Match Committee meeting: Re-Grading

Match committee meets post round 3 and prior to round 4.

1. Each age section and grade data is examined with the purpose of teams being competitive across the grade section. All assessment of teams from the first 3 rounds is examined. This means that teams may lose or win their first 3 rounds and stay within the grade.
2. Team movement in and out of grade sections considered with balance of the age section and grade. i.e. teams up =2 teams down or to fill a bye.
 - a. At times if total number of teams allow an age grade may be split into 3 sections if deemed in the best interest for competitive teams across the section.
 - b. At times 2 or more teams may be unable to be split for movement up or down due to similar data(match points and %) from first 3 rounds. A decision may be held until round 4.
3. Re-grading of team/s determined by Match committee will be published for Round 4 on the fixtures published on the KDNA Website.
4. Any team that is re-graded will retain their premiership points and a percentage of 100 %
5. Any regrading outside post round 3, clubs of the teams effected will be notified by convenor of Match Committee.
6. Any regrading decisions are managed by Match committee and reported at the next KDNA Management Committee by the convenor of the match committee.

CLUBS:

Please Ensure that the data is correct for each player and each team

Important to note:

1. Players previous season information of age section / grade / team are correct as of end of the previous season.
2. All players are listed on Team sheet
3. If a player is new / returning any information the club can provide will assist ie: new to netball or played 13/UA2 2016.
4. Teams are ranked in order ie 1,2 3.....

Match Committee process May 2018

Presented to management Committee and Registration officers of KDNA Clubs – June 18th 2018

This does not necessarily mean that team 1 will equate to A1 section but rather the clubs strongest team in that age section = team 1 next strongest = team 2 etc.....

The rationale for this is that the clubs will know which of their teams in an age section are stronger or weaker. This information is important to ensure that Match Committee takes on board the club recommendations.

If **two or more club teams are graded in the same age/grade sections** clubs do have the opportunity to re-configure these two teams prior to the commencement of Round 1, or to leave as per team sheet submitted. Any changes must be received to the competitions manager 3 days prior to round 1. This also applies if a club team is regraded up into a section with another team from the same club.

Kingston & Districts Netball Association Inc

SPRING 2017 SATURDAY COMPETITION

CLUB NAME: Omega Netball Club

Please note personal details removed for privacy but clubs would have these fields completed.

Club Assessment request

1. All clubs have the right to put in a request for team/s assessment.
2. A club may lodge a request/s for a team/s to be assessed post round 1 and prior to round 4.
3. Club Assessment requests must be emailed to KDNA Competitions Manager.
4. All request must come from the Club President and / or Club Secretary.
 - a. Any correspondence from coaches, parents, players or Club members other than the President and Secretary will not be entered into by KDNA.
5. Club request will be received post Round 1 and prior to round 4.
6. All club request for assessment will be responded to by KDNA match committee convenor with justification for the final decision post round 3.

Please note:

Competitive is determined by within a 20 goal margin.

Extreme is determined by more than a 20 goal margin consistently

Match Committee process May 2018

Presented to management Committee and Registration officers of KDNA Clubs – June 18th 2018

By Laws 18.2 KDNA management, committee does have a right to reject any team applying for entry to the competition. Please note this is to protect the integrity of the Domestic Competition.
